El Campo/The Field (Spanish Edition)

Synopsis

Lynne McTaggart, indefatigable investigative journalist, reveals a radical new biological paradigm that on our most fundamental level, the human mind and body are not distinct and separate from their environment but a packet of pulsating power constantly interacting with this vast energy sea. The Field is a highly readable scientific detective story that offers a stunning picture of an interconnected universe and a new scientific theory that makes sense of supernatural phenomena. Original, well researched and well documented, this is a book of hope and inspiration for today's world. Los experimentos descritos en este libro demuestran que la realidad no es como la imaginamos y aportan pruebas científicas sobre los sucesos paranormales, la videncia, el poder de la oración, la homeopatía, la curación espiritual y el instinto de los animales, por citar sólo algunos de los temas implicados.

Usualmente vemos libros que desde el punto de vista espiritual tratan de explicar ciertos "fenómenos" de manera física. En este libro se toma el punto de vista de la física y se dan bases de lo que ya muchos saben sobre la espiritualidad. Un gran libro para dos tipos de personas: personas de mente investigativa y racional que quieren buscar una posible razón para creer en lo que otros buscan en la espiritualidad. Y personas que están en busca de su espiritualidad y quieren darles bases científicas para complementar y reforzar sus creencias.

I know three people who wanted a copy of this book in Spanish so the fact that I was able to get a hand on 3 copies made me very happy. I only just started reading the book, so I am not commenting on the contents. I am a native Spanish speaker and the translation so far seems to be ok.

If you have questions about where we are and who we are this is the book with the answers, if you have not read anything on the answers for the mentioned questions maybe you must look for something lighter before. But if you already have your own idea about them do not hesitate to have the book as the answers are there.

I am still reading the book, but it's so interesting, it is hard to stop reading. Very interesting subject. I can't wait to finish it.

Un poco complicado en el vocabulario
