Colder Than Hell: A Marine Rifle Company At Chosin Reservoir (Bluejacket Books)

Synopsis

During the early, uncertain days of the Korean War, World War II veteran and company lieutenant Joe Owen saw firsthand how the hastily assembled mix of some two hundred regulars and raw reservists hardened into a superb Marine rifle company known as Baker-One-Seven. As comrades fell wounded and dead around them on the frozen slopes above Korea's infamous Chosin Reservoir, Baker-One-Seven's Marines triumphed against the relentless human-wave assaults of Chinese regulars and took part in the breakout that destroyed six to eight divisions of Chinese regulars. *COLDER THAN HELL* paints a vivid, frightening portrait of one of the most horrific infantry battles ever waged.

Colder than Hell: A Marine Rifle Company at Chosin Reservoir. By Joseph R. Owen. Reviewed by Mike Davino Army Korean War expert Lieutenant Colonel Roy Appleman has called the 1st Marine Division of the Chosin Reservoir campaign "one of the most magnificent fighting organizations that ever served in the United States Armed Forces." The remarkable and inspiring story of the division

at the Chosin Reservoir has been the subject of numerous books and several films. During their fighting withdrawal, the Marines decimated several divisions of the Chinese People's Liberation Army while at the same time fighting an exceptionally harsh winter environment. Joseph Owen's new book on the subject tells the story from the cutting edge perspective of a rifle company. The author served as a mortar section leader and rifle platoon commander in Baker Company, 1st Battalion, 7th Marines from its activation in August 1950 through the Inchon-Seoul and Chosin fighting where he was severely wounded. There are many reasons given for the outstanding performance of the Marines in northeast Korea during the winter of 1950. It is clear from this book that a large measure of the credit goes to the Marines and their leaders at the small unit and rifle company level. Owen's narrative covers the hasty activation and training of the company, its brief participation in the fighting north of Seoul after the amphibious assault at Inchon and the details of its intense fighting at Chosin. He candidly discusses the mistakes made by the leaders and Marines of Baker Company, to include his own. More importantly, Owen covers what they learned from these mistakes and how they used that knowledge to defeat the Chinese in a series of intense actions.
