Age Range: 4 - 7 years

Grade Level: Preschool - 3

Customer Reviews

The language is simple and repetitive, making this a great book to teach Spanish in Elementary and Middle grades. Illustrations are great. It's also a good book for native speakers practicing reading. I use it as a check-out book for English as a Second Language students, to motivate literacy acquisition.

Spanish is our native language and we speak Spanish at home so that our kids learn both Spanish and English. This book is a simple story with rather rich language, my daughter got 3 or 4 words she had never heard before. Besides, my daughter loves the story and the pictures; she likes to look for the mouse and the *pulgarcito* in all of the pages.

The language is as beautiful and as rhythmic as the original English (I'm picky about translation.) This book is a big favorite at home.

This is a fun book with fantastic illustrations. My boys both enjoy it. I am bilingual (was raised with

both languages) and in my opinion, the translation is pretty good (mind you, I have not seen the English version, I base my opinion on grammar and word use).

What a funny book! I'm an adult teaching myself Spanish so I like purchasing children's stories as a way to learn. This book was fun and challenging. It will certainly make you smile with it's silly characters and plot.

I recently bought this book as I am teaching Spanish to my girls. I am Spanish speaker from Puerto Rico. The story is very funny as well as the illustrations. What really bug me is a mistake on translation for a word that is used thru the whole book. As far as I know, and I checked with my sister who is a Primary School Teacher in Puerto Rico (Spanish). "Calentita" is not a word, instead the translator should have used "Calientita". It will be good to get the book corrected.

My children enjoyed this book and it did not take to long to read. A good bedtime book.

Cute story, fun pictures, and above all: good translation! The story in Spanish is just as fun and rhythmic as it is in English The Napping House(we have both in our home). Not a moral-conveying story - just entertaining and enjoyable. Children can take their time finding the different animals on each page and laughing about the multi-critter pile up. :)
