Customer Reviews

This is an excellent edition of Debussy's Preludes. I love that the print is extremely clear and easy to read. The binding made it difficult for the book to stay open at first. I will only buy these new Durand editions of Debussy.

This is newly published. It is scholarly. There are changes in notes from the previous two volumes. This is great because both Volumes 1 and 2 are finally together in this edition. Hooray. Pages are easy to read, the notation is large enough for mature eyes and also has a some finger numbers. Buy it.

This is the best edition you could get. Getting the best of editions is worth every penny. This is the newly revised book free from errors of the First Edition since this edition has undergone extensive and pristine scholarly study of the manuscripts producing a very rewarding edition one could have in
